

NB1140: Physics 1A - Classical mechanics and Thermodynamics
Mastering Physics problems (problems from the textbook)
Chapters 2 - 12 (3rd edition of the textbook)

The following problems in the 3rd edition of your textbook (Essential University Physics, Vol. 1 by R. Wolfson) appear as Mastering Physics problems. You are responsible for solving at least 50% of these problems **before** the midterm exam on 14 December 2016. About 1/3 of the problems on the midterm exam will be identical or similar to the problems below.

List of problems (in the "Exercises and Problems" section at the end of each chapter):
